

Our school aspires to be a healthy school. Our children shall thrive in a school that also concerns itself with healthy food and eating habits. This goal is only attainable with the engagement and help of as many members of the community as possible. We need your knowledge and valuable expertise. Please write down your experience, profession, educational background and ideas. We will not assign any tasks before discussing them with you. We may need your help and talents as a provider, or a member of the planning group, etc.

Please list your name and your contact information. Briefly state your expertise, such as: food production, importing, trading food, producing or importing fruit, cooking, food preparation, conserving food, preparing non-alcoholic drinks, buying or selling food. Experienced in setting up tables, organizing dinners, parties, running a restaurant. Knowledgeable about, or experience in dealing with eating disorders, etc.
